RotorSense joint test campaign, 20 and 21 April 2027

Dear Mr Engelhardt,

we are pleased to confirm the RotorSense joint test campaign at our test hall on 20 and 21 April 2027. Set-up starts on Tuesday at 10:00; the measurements run until Wednesday at 15:00.

As agreed, the University of Wernstadt brings the electrodynamic shaker and its own sensor equipment. Our hall crane is available for unloading.

Kind regards
Dr. Henrike Sasse
Head of the test hall
